

Delta Health Center, Inc.

OB/GYN, Internal Med., Family Medicine

More than 50 years Delta Health Center, Inc. (DHC) has provided health care for some of the most vulnerable communities in the Mississippi Delta.

What is a FQHC? Who is Delta Health Center?

Proudly providing medical services to families in the
Mississippi Delta, since 1965.

What Are Federally Qualified Health Centers (FQHCs)?

- Federally Qualified Health Centers (FQHCs) are community-based healthcare providers that receive funds from the Health Resources and Services Administration (HRSA) to offer primary care services in underserved areas. These centers play a crucial role in ensuring access to high-quality healthcare for individuals regardless of their ability to pay.

- **Key Features of FQHCs**

- - Provide services on a sliding fee scale based on income and family size.
- - Deliver comprehensive primary care, including preventive, dental, behavioral health, and pharmacy services.
- - Serve medically underserved populations and communities.
- - Are governed by a community board to ensure local input and representation.

- **Why FQHCs Are Important**

- FQHCs are essential for reducing healthcare disparities, improving health outcomes, and promoting health equity. They serve as a safety net for individuals who might otherwise lack access to affordable and reliable healthcare

- **Delta Health Center: “A Healthier Delta, A Healthier Mississippi”**
- 1965: First two Neighborhood Health Centers were established in Delta Health Center and Columbia Point in Dorchester, MA) lead by Drs. H. Jack Geiger and Count Gibson.
- 1966: Dr. H. Jack Geiger becomes Project Director of DHC.
- 1967: DHC overcomes political intransience and begins treating patients in Lampkin’s Street Church in Mound Bayou, MS.
- 1968: DHC opens a new 24,000 SQ foot facility with \$800,000 grant from Office of Economic Opportunity (OEO).
- 1971: DHC becomes affiliated with the Medical School of the State University of New York at Stony brook.
- 1972: After much political resistance, DHC merges with Mound Bayou Community Hospital and retains funding.
- 1975: After OEO’s demise, the Department of Health Education and Welfare became the primary funding source for Federally Qualified Community Centers.
- 1980: DHC opens a new 32,000 SQ foot ambulatory care facility expanding services to Bolivar, Sunflower, and Washington counties in Mississippi.

For more than 50 years Delta Health Center, Inc. (DHC) has provided health care for some of the most vulnerable communities in the Mississippi Delta. Delta Health Center was co-founded by Tufts University physicians, Dr. H. Jack Geiger and Dr. Count Gibson. Influenced by their work in the south during the civil rights era, they witnessed firsthand the extreme poverty and ill health that plagued rural communities in the region

The Marketplace- What to Expect in Salary?

General Marketplace Value

The starting salary for medical professionals in the United States varies based on specialty, location, and other factors. According to Salary.com, as of March 2025, the average base salary for an entry-level doctor is approximately \$267,000 roughly per year.

However, Indeed.com reports a higher average salary for physicians, at \$217,401 per year, reflecting variations across specialties and regions. It's important to note that these figures can fluctuate based on specific roles, geographic areas, and the evolving healthcare landscape. [Physicians | Data USA](#)

FQHC (Federally Qualified Health Center)

Geographical location plays a significant role in salary variations. Certain states are known for offering higher average annual salaries for physicians, often exceeding. Conversely, salaries may be lower in areas with a higher concentration of practitioners or within a major metropolitan cities.

Workplace setting also influences earnings. Physicians employed by the government tend to have higher median wages compared to those working in private practice offices or physician offices.

DELTA HEALTH CENTER, INC.

It's important to note that these figures are averages, and individual salaries can vary widely based on specific circumstances, including the demand for physician services in a particular area, the cost of living, and the individual skill set and experience.

Why Choose Delta Health Center?

Health Resources & Services Administration

- [Health Resources and Services Administration | HRSA](#)
- About HRSA
- Tens of millions of Americans receive quality, affordable health care and other services through HRSA
- HRSA programs provide health care to people who are geographically isolated and economically or medically vulnerable. This includes programs that deliver health services to people with HIV, pregnant women, mothers and their families, those with low incomes, residents of rural areas, American Indians and Alaska Natives, and those otherwise unable to access high-quality health care. HRSA programs also support health infrastructure, including through training of health professionals and distributing them to areas where they are needed most, providing financial support to health care providers, and advancing telehealth. In addition, HRSA oversees programs for providing discounts on prescription drugs to safety net providers, facilitating organ, bone marrow, and cord blood transplantation, compensating individuals injured by vaccination, and maintaining data on health care malpractice payments.
- Mission
- To improve health outcomes through access to quality services, a skilled health workforce, and innovative, high-value programs.
